

Specialist in Concrete Elements for the Rail Industry

Are you interested in working on leading international rail projects such as the [Utrecht Uithoflijn](#) or the [Toluca–Mexico City commuter rail](#) line? Do you have a passion for special designs and applications in concrete? If so, we'd like to hear from you!

What will you be doing?

As a concrete specialist at edilon)(sedra, you will be involved in the design and application of a large diversity of concrete elements used for construction in the rail industry. For the projects you will be working on, you will take on a specific or more general role in the manufacture of concrete elements. During projects, you will be responsible for setting up and managing production facilities so that high-quality concrete elements can be manufactured as close as possible to rail construction sites. Using efficient methods you will help bring about savings in both costs and lead times. You will be working with contractors and engineering firms on rail construction projects in urban environments or industrial and port areas. You will regularly visit projects at home and abroad. An essential part of this will be effective communication with other members of the project team!

You are looking for:

- enthusiastic colleagues working in an informal setting;
- an employer who is not afraid to develop and take a lead;
- a place where you can work on major rail projects;
- a close-knit team, consisting of R&D, a drawing office and Application Engineering specialists.

You are someone who:

- is a skilled communicator;
- has a problem-solving mindset;
- is personable;
- and pragmatic.

You have:

- a bachelor degree civil engineering or similar;
- at least 10 years' relevant experience working in concrete construction;
- an affinity with clients;
- a passion for technology;
- experience with project-based working;
- a feel for quality and cost-control optimisation.

Can you identify with these qualities and attributes? If so, we'd like to know more about you!

Have we managed to whet your appetite? If so, send a CV and letter of application to hrm@edilonsedra.com before 28 February 2019. For more detailed information, you should contact: Timo van Amerongen. For general questions, you should contact Sandra Vergeer. Both by phone +31 23 531 95 19. Would you like to know more about edilon)(sedra or the kind of projects you will be working on? If so, go to www.edilonsedra.com or visit our [LinkedIn](#) or [Twitter](#) page.
